## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The primary reasons for the allowance of claims 1-18 have been given in the previous office action. The primary reasons for the allowance of claims 19-20 are the limitations concerning means for applying the plurality of wavelength division multiplexed optical signals to the phase-insensitive optical cavity and the gain medium thereby generating a plurality of narrow wavelength bands, each of the plurality of narrow wavelength bands being immediately adjacent to a wavelength of a corresponding wavelength division multiplexed signal and each of the plurality of narrow wavelength bands including a corresponding recovered optical clock wavelength.

Proper motivation could not be found in the prior art to combine references that disclose the limitations recited in the claims of this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2828

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Delfyett et al.(6,647,031) and Blumenthal(2002/0071152) are relevant prior art.
